CAREER OBJECTIVE

Computer Science undergraduate (AI & ML) skilled in full-stack development with C++, Java, Python, JavaScript, React, Node.js, and MongoDB. Strong in DSA/OOP, REST APIs, Docker, Git/GitHub, GCP, and end-to-end SDLC practices. Experienced in building scalable applications, integrating APIs, conducting code reviews, and collaborating in Agile teams.

EDUCATION

JECRC University

B.Tech in Computer Science (AI & ML) | CGPA: 9.30

2023 – 2027

Jaipur, Rajasthan

SKILLS

Languages: C++, Java, Python, JavaScript

Frameworks: React.js, Node.js, Express.js

Databases: MySQL, MongoDB

Tools & DevOps: Git, GitHub, Docker, VS Code

Core Skills: Data Structures & Algorithms, OOP, SDLC, Operating Systems, DBMS, Computer Networks, Debugging

Soft Skills: Communication, Leadership, Teamwork, Adaptability, Continuous Learning

WORK EXPERIENCE

Software Development Intern | Ghai Technologies Private Limited | [LINK](#)

Feb 2026 – Jul 2026

- Developed **15+** responsive web pages and reusable React UI components, reducing repetitive UI implementation effort by **25%** through component reuse and improving cross-device usability.
- Integrated **8+** RESTful APIs for Google/Facebook authentication, memberships, and payment workflows, reducing repetitive API integration effort by **20%** through reusable request/response handling within an Agile environment.
- Resolved **40+** UI and functional bugs, reducing recurring UI issues by **30%** through systematic debugging, cross-device testing, validation, and Git-based SDLC workflows.

PROJECTS

ScholarBoard – Student Performance & Placement Platform | [WEBSITE](#)

Jan 2026 – May 2026

React.js, Node.js, Express.js, MongoDB Atlas, JWT, Cloudinary, REST APIs

- Engineered a full-stack platform with **35+** React screens, **115+** REST APIs, **20+** MongoDB models, **4** role-based dashboards, and automated workflows.
- Optimized queries across **10,000+** benchmarked profiles using compound indexing and Profile-first aggregation, cutting latency by **98.2% (2.34s → 42ms)**.
- Automated academic workflows and developer scoring with GitHub, LeetCode, and Codeforces, reducing manual evaluation effort for academic workflows by **71.4%** and for developer scoring by **87.5%**.

FutureMedia – A Social Media Platform | [WEBSITE](#)

Jan 2026 – Jul 2026

React.js, Node.js, Express.js, MongoDB Atlas, JWT, Redis, Socket.IO, Docker, Cloudinary

- Architected a social platform with **40+** APIs, **6** MongoDB collections, React, Node.js, Express, Socket.IO.
- Reduced error-handling boilerplate by **98.3%** across **60** Express endpoints using asyncHandler and **6+** security layers with JWT, RBAC, rate limiting, and validation.
- Built a recommendation microservice using TF-IDF, NetworkX, time-decay, and containerized **5** services with Docker.

CERTIFICATIONS

All Certificates

- ServiceNow**, Jaipur (Virtual):
 - Certified System Administrator (CSA) Jun 2026
 - Certified Application Developer (CAD) Jun 2026
- McKinsey Forward Program (Certified) – **McKinsey & Company** Jun 2026
- Samatrix.io**, Jaipur
 - Foundation of AI & Data Science, Probability Modeling & Statistics, Deep Learning, Neural Networks 2023 – 2026

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Solved **810+** DSA problems across **LeetCode** (600+, Max Rating: 1779), **GeeksforGeeks** (120+), **Code360** (70+, Max Rating: 1506), and 20+ on other competitive programming platforms.
- Winner – CodeHunt (JECRC University) | Ranked 1st among **25** teams in a three-stage coding & logic competition.
- Finalist – CodeATHon 1.0 (JECRC University) | Advanced to the top **25** of 500 participants across 2 rounds, finishing in the top 10 by solving 2 medium-level DSA problems in the final round.
- Campus Ambassador, MyGov India – Led **5+** campus engagement events, promoting government initiatives and reaching **2,500+** students across the university.
- Campus Ambassador, BITS Pilani APOGEE – Mobilized **100+** participants for APOGEE through student engagement and event promotion.
